

WHAT DO I DO WITH PAINT CANS?

Latex Paint. Empty, dried-out latex paint cans can be placed in your grey garbage container. Please follow these instructions.

1. To dry out small amounts of latex paint (*less than 1 inch*), leave the lid off until the contents are dry.
2. To dry out larger amounts of latex paint or to dry it quickly, mix 50/50 with kitty litter or a commercial paint hardener. Allow the mixture to dry in the can.
3. Put dried-out paint cans in your garbage container with the lid off so drivers can see the can contains only dried paint.

Oil-Based Paint. Oil-based paint cans are not allowed in the garbage. Please take them to the King County Household Hazardous Waste drop-off location:

13800 SE 32nd St, Bellevue, WA

(open Tues-Fri, 8 a.m. to 4 p.m. and weekends 9 a.m. to 5 p.m.)

If you have leftover paint, donate it to a local charity or post on Craigslist.

We'll handle it from here.™
