**State Route 522 driveway connection permit\***

Fee structure. The following nonrefundable fee structure is established for the processing, review and inspection of the connection permit application. A description of each category can be found in section 12.85.040 of the KMC. Due to the potential complexity of Category II and Category III connection proposals, and required mitigation measures that may involve construction on SR 522, the city may require a developer agreement in addition to the connection permit.

The developer agreement may include, but is not limited to: plans; specifications; maintenance requirements; bonding requirements; inspection requirements; division of costs by the parties, where applicable; and provisions for payment by the applicant of actual costs incurred by the city in the review and administration of the applicant’s proposal that exceed the required base fees in the following schedule:

Category I – Base fee for one connection:	
· Agricultural, forest, utility operation and maintenance	\$50
